M. BILAL KHAN

Full Stack Web Developer

Mianwali, Pakistan

bilalkhan751150@gmail.com **+923287925879** https://bilalkhan.online **bilakhan75**

SUMMARY

Full Stack Web Developer and BS Computer Science student experienced in building responsive, secure, and scalable web applications with React, Next.js, Node.js, NestJS, TypeScript, PostgreSQL, and MongoDB. Skilled in RESTful APIs, database design, real-time features, testing, performance optimization, cloud deployment, Docker, and CI/CD workflows. Strong independent problem-solver with hands-on experience delivering complete products from user interface to backend architecture.

EXPERIENCE

✤ Full Stack React Native App Developer, Viberay Tech | Aug — Sep 2026

Bahria Town, Rawalpindi, Pakistan

- Develop and maintain responsive, user-friendly applications using React Native, React, TypeScript, and Node.js.
- Build and integrate RESTful APIs, server-side logic, and database-backed application features.
- Collaborate with designers and developers to translate product requirements into maintainable features.
- Debug, test, document, and optimize application behavior across development and deployment workflows.

EDUCATION

✤ University of Mianwali | 2022 — 2026

Bachelor of Science in Computer Science (BSCS)

- CGPA: 3.31/4.0.
- Built full-stack web and mobile projects using modern JavaScript, TypeScript, databases, and APIs.
- Collaborated in a three-member team on the EcoStudent capstone project.
- Developed a capstone marketplace with AI recommendations, real-time messaging, and PostgreSQL.

✤ Superior Group of College | 2020 — 2022

FSc Pre-Engineering

- Achieved 86.73% marks in FSc Pre-Engineering.
- Awarded a full-fee scholarship for FSc based on academic merit.

PROJECTS

EcoStudent — Student Marketplace & Exchange Platform

Next.js • TypeScript • NestJS • PostgreSQL • Prisma • Tailwind CSS • AI/ML

- Built a student-focused marketplace for buying, selling, exchanging, and donating educational items.
- Developed authentication, product listings, favorites, order management, reviews, notifications, and real-time chat using Socket.IO.

- Integrated AI-powered product recommendations and image-based product discovery to improve search and personalization.
- Designed PostgreSQL/Prisma data models and scalable backend APIs for marketplace workflows.
- **GitHub:** https://github.com/CodeCraftBilal/EcoStudent

SecureShare — End-to-End Encrypted Cloud Storage & File Sharing

Next.js • TypeScript • AES-GCM • RSA-OAEP • Cloud Storage • Web Crypto API

- Developed a privacy-focused cloud storage and file-sharing platform with client-side end-to-end encryption.
- Implemented AES-GCM file encryption and RSA-OAEP key protection so plaintext files and encryption keys remain inaccessible to the storage provider.
- Built secure upload, download, encrypted sharing, access-control, and file-management workflows.
- Designed a responsive interface for managing personal and shared encrypted files.
- **GitHub:** https://github.com/CodeCraftBilal/info-security-project
- **View Live Project:** https://secureshare.bilalkhan.online

NexaPlan — Intelligent Team & Task Management Platform

Next.js • TypeScript • Node.js • PostgreSQL • Prisma • AI/LLM APIs

- Developed an AI-assisted workspace for managing projects, teams, tasks, deadlines, and collaboration.
- Implemented RBAC for Workspace Owners, Project Managers, Team Members, Viewers, and administrators.
- Built task assignment, priorities, status tracking, deadlines, comments, activity tracking, and project dashboards.
- Integrated AI features for project planning, task generation, workload organization, summaries, and productivity assistance.
- Designed scalable database models and APIs for users, workspaces, projects, roles, permissions, and tasks.
- **GitHub:** https://github.com/CodeCraftBilal/NexaPlan

SKILLS

HTML ---------- ★★★★★
CSS ---------- ★★★★★
Javascript ---------- ★★★★★
React ---------- ★★★★★
Nextjs ---------- ★★★★★
Tailwindcss ---------- ★★★★★
REST APIs ---------- ★★★★★
Git & Github ---------- ★★★★★
Vercel ---------- ★★★★★
VS Code ---------- ★★★★★

Nodejs ---------- ★★★★★
Express ---------- ★★★★★
Nestjs ---------- ★★★★★
Python ---------- ★★★★★
PostgreSQL ---------- ★★★★★
Socket.io ---------- ★★★★★
Postman ---------- ★★★★★
Docker ---------- ★★★★★
CI/CD pipeline ---------- ★★★★★
Database Design ---------- ★★★★★

- Used Codex, Claude Code, Antigravity and Cursor for creating fast, scalable and efficient Projects.
